DISCLAIMER

AILABS TOKEN, including but not limited to the overall project, token, website, smart contracts and any apps ("AILABS TOKEN") as presented in this conceptual paper is not a licensed, unlicensed or exempted financial or payment service of any kind and in any jurisdiction. Any terminology used in this Whitepaper, on the Website or within the app is intended only as a basic reference, without any effective or legal meaning of the same terms in a regulated and/or financial environment. AILABS TOKEN is a community-driven project and does not have owners, shareholders, promoters, marketers, managers, directors, or other figures or entities exerting any form of governance. The AILABS TOKEN smart contracts are open source, security audited, permanent and non-modifiable in any way. The AILABS token is strictly a utility token in all jurisdictions and is not and cannot be considered to be a "security" or otherwise regulated token of any kind. AILABS TOKEN is not in any way e money and/or fiat money, or an asset backed stablecoin, whether global or limited in scope.

This Whitepaper taken by itself is not a contract or a contractual agreement of any kind, nor is it an invitation, solicitation, or offer to invest in AILABS TOKEN or acquire or use AILABS TOKEN tokens in any way and with any expectation of profit therefrom. Any user of AILABS TOKEN represents and warrants that such user has received appropriate technical, administrative, regulatory and legal advice before and after accessing and/or reading this Whitepaper or the Website, and/or using any portion or element of AILABS TOKEN (including the AILABS TOKEN). The user hereby acknowledges and accepts that there is an inherent high risk in accessing, acquiring or using any kind of blockchain and/or crypto system, token, platform, software or interface, including AILABS TOKEN, and further disavows any claim of any kind against any community member directly or indirectly involved with AILABS TOKEN, for any damage suffered, including total loss.

AILABS TOKEN is built on the Binance Smart Chain with extremely fast 5 second block times and cheaper gas fees than Ethereum's network

WHAT IS AI LABS

AI Labs is an AI-based crypto project that offers a unique combination of features from the world of decentralized finance (DeFi), non-fungible tokens (NFTs), and play-to-earn gaming.

The platform's DeFi features allow users to earn passive income by staking their tokens in liquidity pools or providing liquidity to the platform. This incentivizes users to hold onto their tokens and contribute to the stability of the platform, while also generating returns on their investment.

AI Labs also incorporates NFTs into its platform, allowing users to buy, sell, and trade unique digital assets such as artwork, collectibles, and virtual real estate. These NFTs can be used in a variety of ways, including as collateral for loans, as in-game assets for play-to-earn games, or simply as a store of value. The play-to-earn feature of AI Labs allows users to participate in blockchain-based games that reward players with tokens or other digital assets. These games leverage the security and transparency of blockchain technology to create fair and transparent gameplay, where players can earn rewards based on their skills and performance.

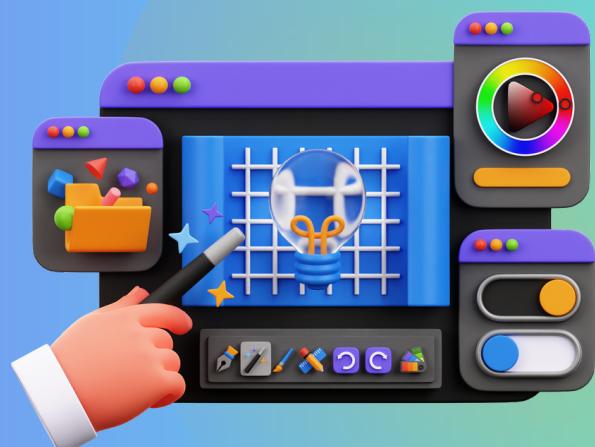

Overall, AI Labs offers a unique combination of features that cater to a wide range of users, from crypto investors and traders to gamers and collectors. By leveraging the power of AI, DeFi, NFTs, and play-to-earn gaming, AI Labs aims to create a more accessible and inclusive crypto ecosystem that rewards users for their participation and contributions.

ABOUT AI LABS

AI Labs is an AI-based crypto project that aims to revolutionize the cryptocurrency space by leveraging the power of artificial intelligence.

The primary goal of AI Labs is to provide a comprehensive suite of AI-based tools and features that can enable smarter and more efficient trading decisions in the cryptocurrency market. The platform uses machine learning and deep learning techniques to analyze massive amounts of data and identify patterns in market trends. This analysis is used to generate accurate predictions about the future price movements of cryptocurrencies, allowing traders to make informed decisions about when to buy and sell. Another goal of AI Labs is to create a more accessible and inclusive crypto ecosystem that rewards users for their participation and contributions. The platform incorporates DeFi, NFTs, and play-to-earn gaming features that cater to a wide range of users, from crypto investors and traders to gamers and collectors.

AI Labs aims to leverage the power of AI to make cryptocurrency trading more accessible, efficient, and profitable for users, while also creating new opportunities for innovation and growth in the crypto industry.

TOKENOMICS

MARKETING & DEVELOPMENT

AI Labs marketing and development efforts are focused on building a strong and engaged community of users and developers who are passionate about the platform's mission and goals.

In terms of marketing, AI Labs uses a variety of channels to promote its platform, including social media, community forums, and targeted advertising campaigns. The company also attends industry events and conferences to connect with potential partners and investors.

AI Labs also prioritizes the development of new features and improvements to its platform. The company's development team is focused on building advanced algorithms and predictive models to improve trading performance and optimize the platform's user experience. Additionally, AI Labs is actively working on incorporating new features, such as decentralized exchanges (DEXs), to provide users with greater flexibility and control over their assets. To ensure the success of its platform, AI Labs is also focused on building strong partnerships with other companies and organizations in the cryptocurrency space. The company is actively seeking partnerships with exchanges, wallets, and other platforms to expand its user base and provide greater access to its features and services.

Overall, AI Labs marketing and development efforts are aimed at building a strong and engaged community of users and developers, and continually improving its platform to provide a superior user experience and value proposition.

STAKING PLATFORM

AI Labs will offer a staking platform that allows users to earn passive income by staking their tokens. Staking involves holding tokens in a designated wallet or smart contract and contributing them to the network's security and transaction processing.

AI Labs staking platform will allow users to stake their \$AILABS tokens and earn rewards in the form of additional \$AILABS tokens. The staking rewards would be based on the number of tokens staked and the duration of the stake. The longer the stake, the higher the reward.

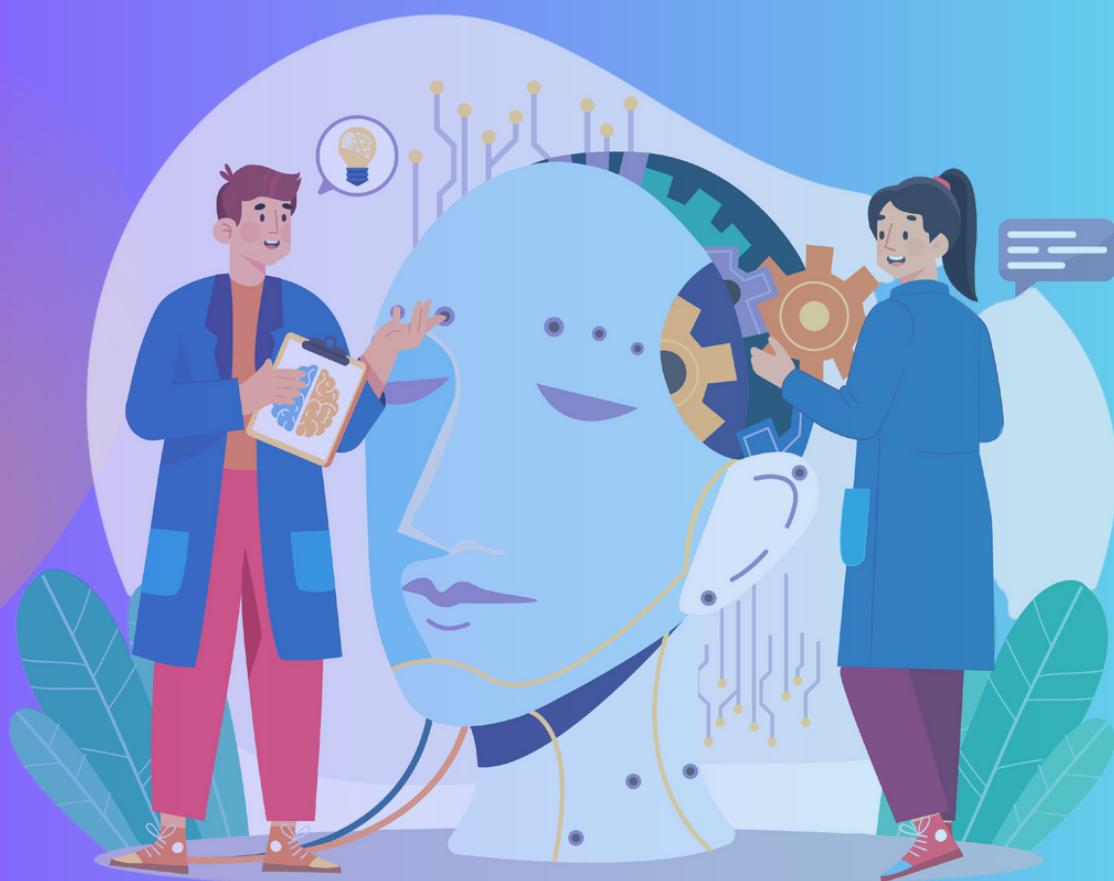

Users can choose to stake their tokens for different periods, ranging from a few days to several months or even years. The platform's staking rewards would be designed to incentivize users to hold onto their tokens and contribute to the stability of the platform.

AI Labs staking platform will also provide users with a secure and transparent way to participate in the network's governance. Users who stake their tokens are given voting rights on important platform decisions, such as network upgrades and changes to the platform's features and functionality. Overall, AI Labs' staking platform is a valuable feature that allows users to earn passive income while contributing to the stability and governance of the platform. It is a valuable tool for those who believe in the long-term success of the platform and want to hold onto their tokens while earning additional rewards.

SECRET DEVELOPMENTS

AI Labs is focused on developing innovative solutions that leverage the power of AI and blockchain technology to revolutionize the cryptocurrency space. While the specific details of the company's secret projects and developments are not publicly available, it is clear that AI Labs is dedicated to pushing the boundaries of what is possible in this rapidly evolving field.

ROADMAP

AI Labs has a comprehensive roadmap that outlines its plans and goals for the future. While the specific details and timelines may be subject to change, the roadmap provides a general overview of the company's objectives and milestones.

Here are some of the key milestones and objectives outlined in AI Labs' roadmap:

Phase 1 : (Q1 - Q2 2023) Launch And Initial Offering

- Development & Launch Of \$AILABS PROJECT
- Develop and Launch \$AILABS TOKEN
- Build a community of Early adopters and Supporters
- Conduct a Fairlaunch Presale on Pinksale.finance
- Developing Aggressive Marketing Strategy
- Integrate \$AILABS TOKEN Into Major Exchanges for Trading

Phase 2: (Q2 - Q3, 2023) Gaming On The Blockchain

- Launch of Crazy Lunatic NFT
- Introduce play to earn gaming plans powered by AiLabs token
- Launch of Gaming Tournaments and Contests for Users to Compete in.
- Partner with gaming studios for third-party game integration

Phase 3: (Q3 - Q4, 2023) Entering The Metaverse

- Creation of Play To Earn Platform to Bring Onboard Great Projects
- Building of a Virtual Metaverse World With AI integration for users to explore
- Launching & Supporting other P2E Games on our Platform
- Introduce a Virtual Real Estate Rental System where users can earn passive income through Staking of their Digital Assets
- Partner up with other Metaverse projects for Cross-Platform Compatibility
-

Phase 4: (Q1 2024) Empowering The Community

- Introduce a staking platform for Holders to Earn Interest while holding \$AILABS
- Launching a DAO for Token Holders to vote on development decisions
- Develop DeFi protocols to allow users to borrow and lend \$AILABS Tokens
- Introduce asset management tools for Cryptocurrency Holders to manage their Portfolios

Overall, AILABS Roadmap is focused on Building a Comprehensive and Innovative platform that incorporates AI, DeFi, NFTs, and other cutting-edge technologies. By achieving these milestones, \$AILABS aims to create a more accessible and inclusive crypto ecosystem that rewards users for their participation and contributions.
